Oversized Oak Garland Printable Pattern

REMINDER: All Madam of Making digital and printable patterns are for personal use only and can not be shared or redistributed without written permission. If you have any usage questions or requests please feel free to reach out.

HOW TO USE:

PRINT: Open file and send pages 1-4 to any standard home printer. Once printed line up the pieces using the overlap indicators and tape well on the front and back. Once taped, cut out the leaf shapes as close to the black lines as possible.

TRANSFER PATTERNS TO FABRIC:

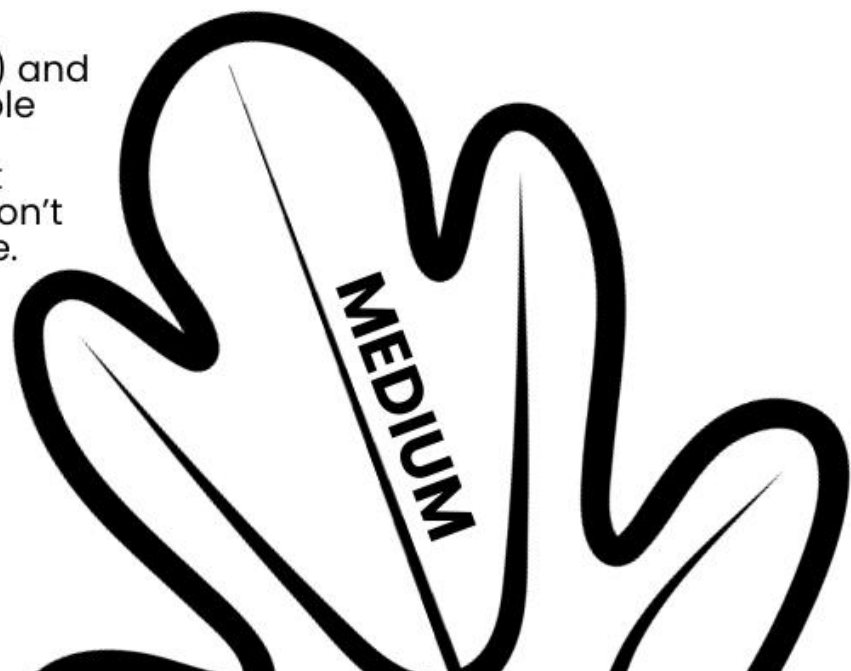

Layout the Eva Foam or LEAF fabric (right side down) and using a piece of chalk, pattern wheel or heat erasable pattern pen trace around the patterns.

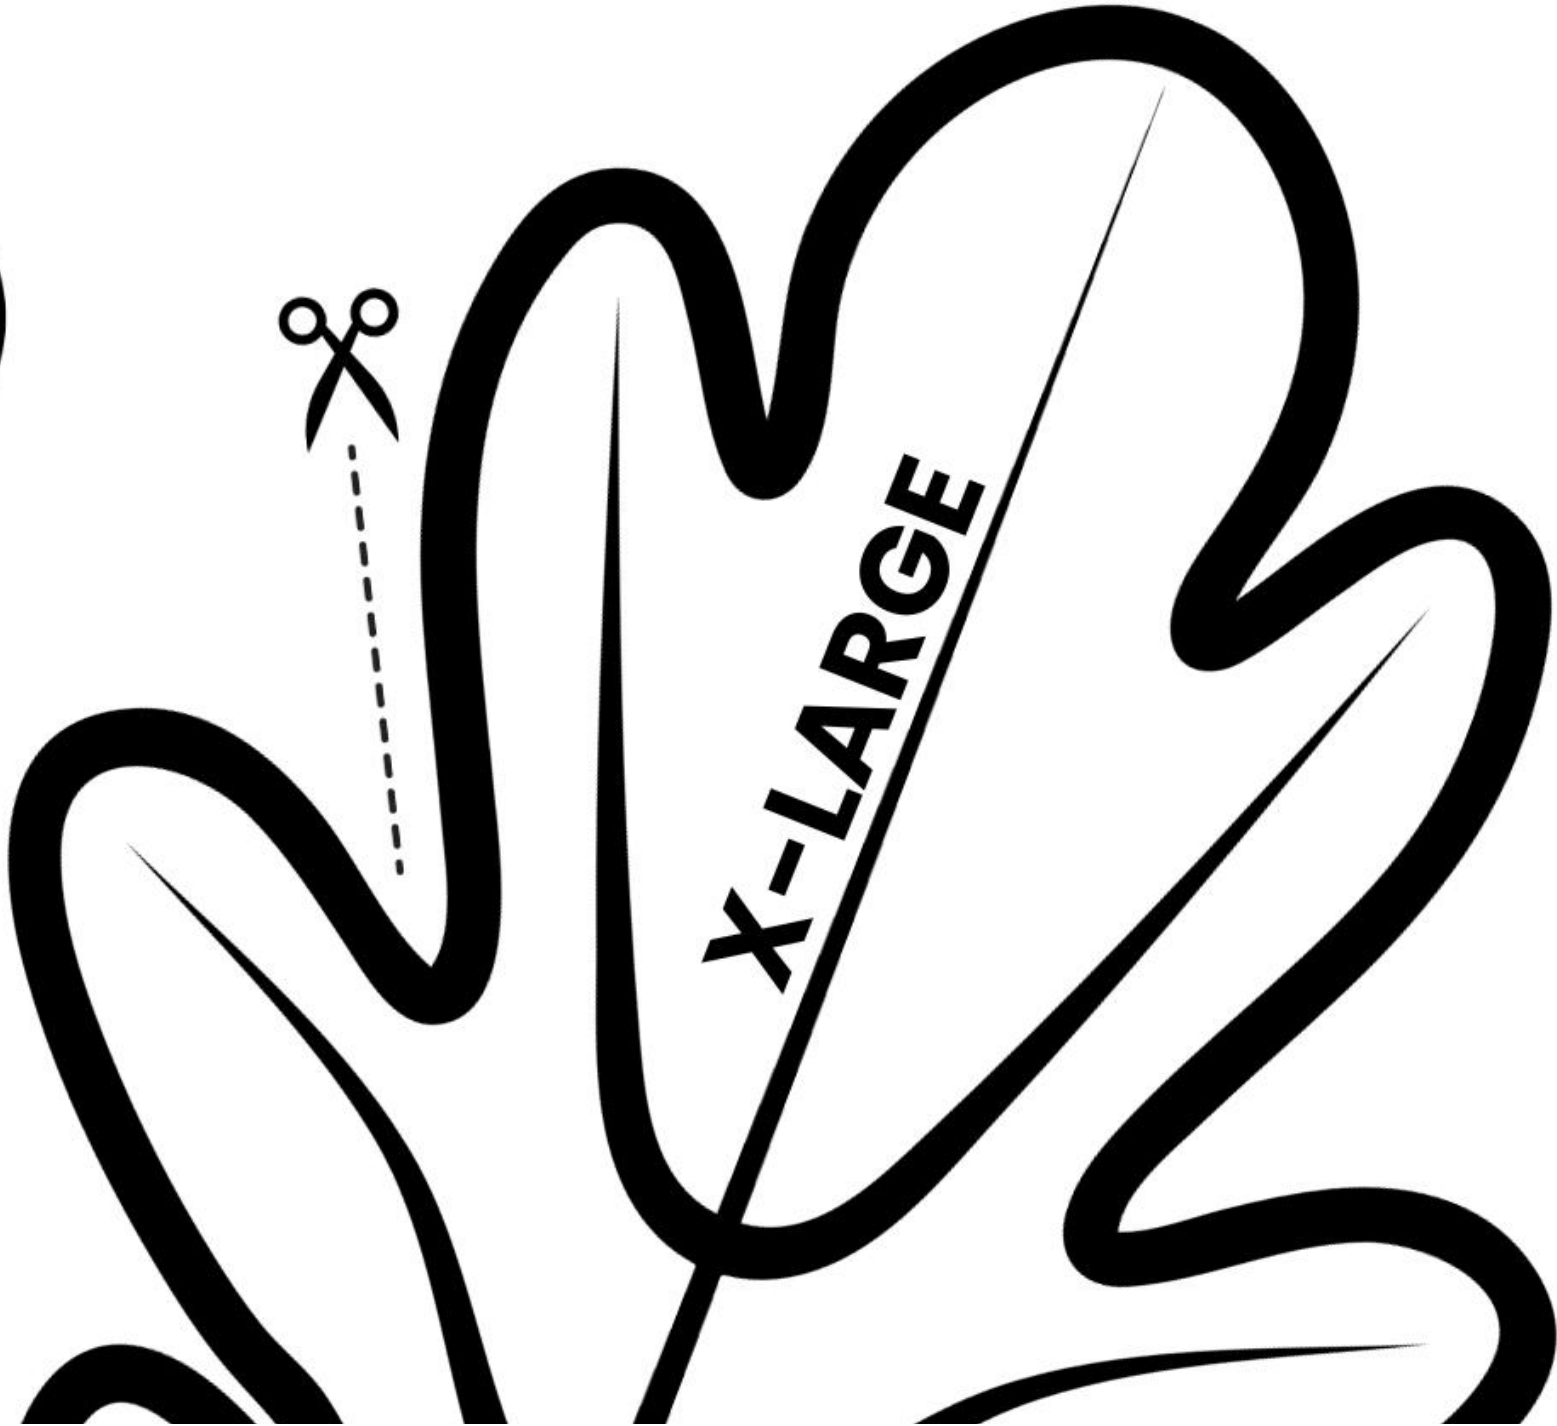

Move, Flip, Twist, Turn the patterns to get the highest amount of Leaves out of your fabric or foam- you won't need much space between them so fill all the space.

 Cut out all the LEAVES and set aside.
